S. OF V. INSTALLATION.

The severe storm of Tuesday evening did not prevent a large attendance at the annual installation of Charles V. Marsh Camp 45, S. of V. G. A. R. Hall is attractive in itself, but doubly so on these occasions. But while the attendance was not as large as it would have been had the rain ceased its downpour, yet those who assembled thoroughly enjoyed themselves.

There are always more or less disappointments to contend with, and this occasion proved no exception to the rule. The Rev. George N. Howard of Melrose, Mass., was to have been the installing officer, but owing to a mixup in dates he was unable to attend, and Past Division Commander Orange H. Cook of Melrose, who is a great favorite with the members of this camp installed the same in a very creditable

For five consecutive years he was elected captain of a Camp an unusual one. Following is a list of the officers elect: Captain, George W. Knowlton; 1st lieutenent, W. A. Stevens; 2nd lieutenant, E. A. Gibbons; camp council, E. A. Knowlton, Jesse G. Pattee, with a vacancy to fill.

The Captain appointed the following staff: 1st sergeant, A. B. Moulton, jr.; A. Roberts; musician, F. R. Daniels; Past-Colonel W. A. Stevens presented the past captain with a past captain's badge and a handsome bouquet of flowers in behalf of the camp, and a bouquet was given Past Colonel Cook and Captain Knowlton; to which all responded in a happy way.

After the installation there were speeches by Orange B. Cook, captains of various camps, A. S. Knowles, C. S. Parker, after which all went below to the banquet hall and partook of a bountiful supper. Mrs. G. W. Knowlton had charge of the supper, she being ably assisted by Mrs. James A. Marden, Mrs. F. H. Gray and other ladies of the Relief Corps. After supper there was an informal social time. It is hoped this year will be a prosperous one for the camp. There are many elegible sons in Arlington who should join and thus help to perpetuate the deeds of their fathers. The S. of V. made an excellent showing in the late war, as the records show (notwithstanding slurring remarks to the contrary) and the order feels proud of having so large a percentage respond to the call.

A PLEASANT SURPRISE.

A pleasant surprise party was given on Wednesday evening to John Schumacher at his residence, 930 Massachusetts avenue. Somewhere about 100 of Mr. Schumacher's friends made their way, unheralded to Mr. Schumacher's home, and at once took possession of the house. The host and hostess of the evening gave a cordial welcome to the company of visitors who had come bearing the best of wishes to Mr. and Mrs. Schumacher. After a social hour spent in conversation, dancing was enjoyed, the violin and harp discoursing the liveliest of music. Supper was served, the tables being laden with a variety of good things to eat, The friends expressed their high regard for Mr. Schumacher by presenting him with an elegant gold watch. Mr. Schumacher is in the employ of the Boston Elevated Railroad Co.

Had Goldsmith been evening, in the vestry of the Unitarian Church, we do not question he would have given his cordial approval of the the homeless home. amateur acting therein displayed. Mr. W. H. N. Francis evidently has a most intelligent conception of the play, both in its outline and in its filling. The part of Squire Hardcastle, which Mr. Francis presented so admirably, was acted with all the taste and skill of a professional. In every position that Mr. Francis took upon the stage, and in every facial expression and gesture of his, as the play progressed, he evinced that ease and grace which can only come from careful training and study. Not only did Mr. Francis by repeated rehearsals catch the spirit and deeper meaning of his own part, but he had much to do in giving life and significance to the parts so well rendered by others of this Unitarian amateur company. The verdict of all those who witnessed the play was that Mr. Francis was the presiding genius of the evening, strongly and happily seconded by Miss Alice Homer, who showed her womanly nature in the love she so naturally and delightfully manifested for her son, Tony Lumpkin. Mrs. Hardcastle clung to Tony with that depth of affection which only a mother possesses, and this, too, when Tony revealed himself quite the equal of Peck's bad boy. Miss Alice Homer was a most essential addition to the cast of characters. Miss Edith Trowbridge has a charming presence upon the stage, and her acting was a pleasant feature of the evening. Miss Grace Gage, who had one of the most difficult parts.to perform, did as she always does, excellently well. But they all did well, as our reporter said in our last week's issue. Too much credit cannot be given Miss Caira Robbins for her successful management of this most enjoyable entertainment of the season had thus far in Arlington. Especial mention should be made of Mrs. Francis and Miss Grace Gage, who so ably

able to do such credit to the histrionic art, that there really is but little occasion why we should often go to Boston for our amusements and instruction in the play-going world. The young against gobbling up the Phillipines people of the Unitarian Church and society have put us all under obligations to them for the delightful hour they gave us in the rendition of the subject. That Senator Hoar represents play, "She Stoops to Conquer."

It was interesting to learn from the speaker so much of the early division of the town, when Belmont and other ing of band, vocal and instrumental RESIDENCE, CCR. Mr. Wellington is so familiar with the growth of Arlington, in which he has been a prominent factor, that it would be the good fortune of the town lows: could he be induced to write its history. Mr. Wellington emphasized the fact with most commendable pride, that Arlington had always been at the front in every lauduable enterprise, and there she is to-day, and there she is likely to remain. The address was altogether interesting from beginning to end. The hot oyster supper served, and the cigars passed around, then came brief and well put speeches by the following representative men of the town, the Messrs. Edwin S. About 35 couples from Lexington, Arlington, footsteps died away, Douglas Murray Cambridge and Boston participated in the festivities. The hall was hand- said: somely decorated with ferns, rubber plants, etc., and most delightful music was discoursed by Goodrich's orchestra. Following the dance a bountiful collation was served, and then the guests left for home, a special conveyance having been provided for those from out of town, connecting with the electrics at Arlington Heights. The patronesses of the affair were Mrs. William E. Page, Mrs. Emma F. Goodwin and Mrs. Walter B. Perkins. Mr. R. L. Stevens acted as manager.

In voiceful silence all my heart had guessed
And hoped and lived for in its wild delight.

A STOLEN KISS.

"My dear Leslie," said Sir Henry Seymonr to his ward, "I do wish you one is talking about you, and it is very painful to me."

"My dear guardy," said the young lady he addressed, a very pretty girl about 18, "what have I done? Just mention some of my sins and I will try to reform."

"Well," said Sir Henry, "to begin with, you are much too fond of using slang expressions; I am sure you do not mean any harm, dear, but it does not sound well. I wish you would adopt a more ladylike manner, like those nice, quiet girls, Colonel Bond's daughters. Lassure you, Leslie, men do not care for fast girls, however much they may flirt with them, and I confess I should like to see you well married."

"Now, my dear Sir Henry," said Leslie coaxingly, "tell me, did you ever hear me say anything the least weeny bit improper?"

"Certainly not, my dear child."

"Then let me tell you those nice, quiet, ladylike girls you admire so much say things that would make your bair stand on end. If you could only hear how they go on when we are by ourselves! I should be quite ashamed, she added, with energy, "even to think of the things they discuss freely-indeed I cut them whenever I can. As for marrying-really, all the young men I know are such muffs or prigs I detest the whole lot. What is my next crime?"

"You smoke cigarettes Leslie," said her guardian sternly. "I was told you were actually seen with one between your lips out of doors the other night." Leslie hung down her head a little, and then said, with a slight blush:

"I cannot deny I tried one once, and indeed it was so pasty and made me feel so ill that I assure you I am not likely to do it again."

"I am glad to hear it. So you think all young men muffs or prigs? I hope to introduce you to one who answers neither description. You have of course heard of Captain Murray?'

"Do you mean the Captain Murray who gained the Victoria cross for defending that fort so gallantly in the last campaign? Of course I remember all about him. Why?"

"He is coming home, and being the son of an old friend be has promised to pay me a visit, and I expect him

In due time Captain Murray arrived. Leslie Lindsay was disappointed. She could hardly believe that quiet, unassuming young man could be the hero who had startled the whole civilized world into admiration. One very bot day in July Leslie and Sir Henry's daughter, Amy Seymour, were returning from making a call The drawing room windows opened on and pleasant inside on such a sultry day. The two girls were about to enter the room when Leslie, who was in advance, suddenly drew back and pointed near the window.

"What a chance, Amy, for me to win a pair of gloves!' "For shame, Leslie! You surely would not think of such a thing.'

"Who's afraid?" said Leslie. "Be sides, he is really fast asleep and will never know, and the temptation is too much for me. Consider, the hero the whole world raves about," and with a mischievous look at Amy she 'stepped lightly in and dropped a kiss as light as a puff of thistledown upon the sleeper's forehead.

As the sound of the girl's retreating opened his eyes and, smiling to himself,

"I suppose that is considered a fast girl. I must confess I like her, and believe she is really true and womanly. That fast manner is all humbug. I must not forget to pay my debt, however," and he laughed. "She thinks me a muff, I know. Never mind, that kiss was very nice-I forgive ber.

A day or two afterward as they were all at breakfast, Sir Henry said:

"I forgot, Leslie, here is something for you," handing her a small packet, marked "Parcel Post."

"What can it be, I wonder?" she said, as she cut the string, "the handwriting is quite strange to me," and she was about to open it quite uncon-cernedly, when Amy remarked:

"It is just the shape of a glove box."

Leslie started and looked guiltly across the table at Captain Murray,

She took off the paper wrapper and discovered a white box-it did look horribly like a glove box, Leslie thought, as she lifted the cover-and, yes, inside lay several pairs of dainty kid gloves of different shades.

Hoping nobody noticed her confusion, and not daring to look across the table, she was replacing the cover of the box,

when Captain Murray said very coolly: "I always pay my debts, Miss Lind-say; I do not like to feel under an obli-

Hastily seizing her parcel, Leslie rose, and, murmuring something to Sir Henry about not feeling very well, she flew up stairs and locked herself into her room, where she had a good cry.

After a little time she took a look at the gloves.

"Just my size. I wonder how he would try to be a little less fast. Every knew, And six buttons! And how pretty they are! He is not quite such a 'prig,' after all, but it makes no difference to me now. He dislikes me, I know, and I wish he was gone." And

then she had another good cry. Sir Henry Seymour had no reason to complain of his ward's conduct for the next few days; but she avoided Captain Murray, who tried in vain to get a chance of speaking to her.

One morning, however, fortune favored him. He was in the garden, and Leslie was walking toward him. She was quite unconscious of his proximity, and they must meet in a moment more. When she saw him standing near, she lifted her sweet blue eyes to his with a wistful, half beseeching glance.

"Miss Lindsay," said Douglas, "shake hands with me, please. I am afraid I took a most unfair advantage of you. Pray forgive me, and let us be friends.

"Ob, Captain Murray, I do feel so awfully ashamed of myself! What must you think of me?"

"Shall I tell you what I think of you, darling?" as he gently drew her toward him. "I think you a dear, sweet, lov-able girl, and if you can put up with such a muff as I am as a husband"-"Oh, please, don't!" said Leslie, in-

terrupting him. "Do not remind me of my impertinence. You are much too good for me; but, indeed," with great earnestness, "I will never do it again!" "I call that positively unkind, I as-

Curbing Emotion.

We have all seen the man with so diplomatic a countenance that an earthquake would hardly produce any change in his imperturbable face. We are ant to infer that these sphinxlike persons never feel emotion, whereas they do not betray their feelings like the generality of people.
Columns have been written about the

impassiveness of Disraeli's expression. A German philosopher once went to Berlin for the sole purpose of studying his character and discovered what every one had searched for in vain. "Like all men," wrote the keen observer, "he has one sign of emotion which never fails to show itself, the movement of the leg hat is crossed and the foot."

But if there was ever a man of "iron self control" that man was Lockhart, the famous biographer. He formed the make any violent display of joy or grief, and he succeeded so well in repressing his feelings that when he grew up he could not show them. When his brother and sister died within a few days of each other. Lockhart did not cry or otherwise relieve his deep and terrible feelings, and the consequence was that he became so ill that his life was in jeopar-

Coal Burned by Steamships. The amount of coal consumed by a ressel during a voyage depends very largely upon the speed, for the consumption of coal increases almost in a geometrical ratio to the speed. There are many ships which burn from 100 to 800 tons of coal per day, the lowest consumption being when the vessel is going at a moderate rate. Our men-of-war do not consume so much in proportion as swift passenger steamers which ply between Europe and America, for unless in an emergency they are not driven at the highest attainable speed. The ocean assenger steamers often burn from 2,500 to 3,500 tons during a passage lasting six to seven days.

"A Good Pulpit Sweat."

The man who preaches with his entire powers finds the body and mind and beart are all exercised. Other than that which he used in his painting room, it is said, Sir Joshua Reynolds took no exercise. He walked about the picture on his easel, and his whole mind and beart went out toward it. Whitefield in his homely way commended to his brethren in the ministry "a good pulpit sweat" as the best medicine. A sermon is an athletic exercise as well as a drain on the soul and spirit. Virtue goes out of the preacher just in proportion as he is a close follower of his divine Master.

The Sunflower.

In 1842 a Russian farmer named Bokareff conceived the idea of extracting oil from the seed of the sunflower. His neighbors told him it was a visionary idea, and that he would have his labor for his pains. He persevered, how-ever, and from that humble beginning the industry has expanded to enormous proportions. Today more than 7,000,000 es of land in Russia are devoted to the cultivation of the sunflower. Two kinds are grown, one with small seeds, which are crushed for oil, and the other with larger seeds, that are consumed by the poorer people in enormous quantities.
